3. Hazards Identification

Odor/Appearance: White

Potential health effects

Eye Contact:

Can cause eye mild irritation.

Skin Contact:

May cause mild skin irritation.

Inhalation:

Irritates respiratory passages very slightly.

Ingestion:

Symptom:

Signs and symptoms of exposure of this material through breathing, swallowing, and/or passage of this material through the skin may include: stomach, or intestinal upset (nausea, vomiting, diarrhea), irritation (nose, throat, airways).

4. First Aid Measures

Eye Contact:

Flush with warm water for 15 minutes. Seek medical attention.

Skin Contact:

Wash with soap and water. Remove any contaminated clothing and launder before reusing. If irritation persists, seek medical attention.

Inhalation:

Remove exposed individual to fresh air, protecting yourself. If breathing is difficult, administer oxygen and seek medical help.

Ingestion:

If irritation or discomfort occur, obtain medical advice.

5. Fire Fighting Measures

Flash Point > 214°F

Suitable extinguishing media

Water spray, Dry chemical, Carbon dioxide (CO2)

Hazardous combustion products

No data

Precautions for fire-fighting

Wear full firefighting turn-out gear (full Bunker gear), and respiratory protection (SCBA). Use water spray to cool fire exposed containers and structures until fire is out if it can be done with minimal risk. Avoid spreading burning liquid with water used for cooling purposes.

6. Accidental Release Measures

Personal precautions

For personal protection see section 8. Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed.

Environmental precautions

Prevent spreading over a wide area (e.g. by containment or oil barriers). Do not let product enter drains. Do not flush into surface water or sanitary sewer system.

Methods for cleaning up

Keep in suitable, closed containers for disposal. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

Other information

Comply with all applicable federal, state, and local regulations.

7. Handling and Storage

Handling

Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor, liquid, and/or solid), all hazard precautions given in the data sheet must be observed.

Storage

Store in a cool, dry, ventilated area.

8. Exposure Controls / Personal Protection

Ingredient	CAS Number	
Triethanolamine dodecylbenzene sulfaonate	27323-41-7	ACGIH TLV/TWA 5 mg/m ³
Octamethylcyclotetrasiloxane	56-67-2	Supplier TWA 10 ppm

Protective Equipment:

Use synthetic gloves if necessary to prevent excessive skin contact. Do not wear contacts and always use ANSI approved safety glasses or splash shield.

Engineering Controls:

General or dilution ventilation is frequently sufficient as the sole means of controlling employee exposure. Local ventilation is usually preferred. Use a NIOSH approved respirator if ventilation is not adequate to maintain exposures below TLV levels.

Respiratory Protection:

Respiratory protection is not required under normal conditions of use.

Other Suggested Equipment:

Eye wash station and emergency showers should be available. Spill containment equipment should be available.

Discretion Advised:

We take no responsibility for determining what measures are required for personal protection in any specific application. The general information should be used with discretion.
