

MiniTemp™ Noncontact Thermometer

*Measures surface temperatures
without having to touch the target*

Measure difficult surface temperatures with the MiniTemp™ Noncontact Thermometer. The MiniTemp™ measures temperature from 0° to 750° F and displays values on a large backlit display in either F or C degrees. The lightweight instrument is operated by a trigger, making it easy and convenient to use. It offers a built-in laser pointer for improved aim. The meter is pocket-size and powered by a 9 volt battery.
