

Blue Label Silicone Spray Mold Release

More releases per spray — Long lasting

Developed by IMS, Blue Label Silicone is an exclusive blend of two different types of silicone which forms a thin, tough film on the mold surface. It is the best spray anywhere for new molds.

Effective with:	Nylon	Polypropylene	PVC
ABS	Polycarbonate	Polystyrene	Rubber
Acetal	Polyester	Polysulfone	
Acrylic PMMA	Polyethylene	PPO	

Note: Blue Label Silicone Spray can cause a film buildup on warm molds if used too heavily. The buildup is easy to remove with a soft cloth and IMS Citrus Spray or White 2000 Mold Cleaner.

Item #	Quantity (packaged 12 cans per case)	Prices per can
