

# ROUT-A-BURR Deflashing Tools

Speed part deflashing with ROUT-A-BURR Deflashing Tools. These tools come in a wide selection of handles, blade holders and blades to provide flexibility for all applications. The blades are good for plastic, steel, aluminum, brass and cast iron.

## Handles and Holders

- Adjustable blades can swivel a full 360°
- Excellent for both internal and external part deflashing
- Heavy duty styles for tough applications
- Easy and comfortable to use
- ARB-1 and PRB-2 blade holder accepts all B series blades
- PRB-3 and GB-E accept all E series blades directly into the handle

## Standard B Blades

- Come on ROUT-A-BURRS with anodized aluminum holders and plastic handles
- Vertical or horizontal insertion
- Curved to automatically follow contours and edges of work pieces
- High grade steel
- B10 — for small holes.
- B20 — Can rotate clockwise and counter clockwise.

## Standard E blades

- Come on ROUT-A-BURRS with transparent plastic container handles and aluminum swivel blade holders.
- Larger blade diameters
- Meant for heavy duty jobs where subjected to extra pressure.
- High grade steel
- E100: Basic blade (right-handed)
- E200: Can rotate clockwise and counter clockwise.
- E300: Removes external and internal burrs simultaneously from holes drilled into tubing and sheet metal. Follows inside walls for burrs deeper than E100 or 200.
- E350: Used for straight edges, key ways, etc.
- E600: Used for deburring in the most inaccessible locations. Ideal for deep cross drilled holes.
