

Ball Check Spanner Wrench

Designed for safer, easier screw tip removal

Value-Priced Supplies

Adjustable Pin Spanner Wrenches from IMS are just what you need for safe, easy installation and removal of ball check type screw tips. These quality wrenches adjust automatically to the diameter of the tip. They fit snugly and securely, and will not harm tips if used as intended. A long, heavy duty handle provides good leverage and strength while the thick, plastic coating provides a softer, more comfortable grip. The IMS line of Spanner Wrenches will fit any screw tip diameter from 3/4" to 6 1/4". See chart below for specific diameter ranges.
