

Drum Type Part/Runner Separator

FAST SEPARATION —
Keeps up with fast-cycling presses
and multiple-cavity molds

★ **Unique Single-Point
Gap Adjustment —**
Moving just one knob sets
all the vanes at the same time

**USE WITH
ANY CONVEYOR
UP TO 18" WIDE**

★ **Rugged Steel
Support Frame**
with extruded and anodized
aluminum upper frame,
side rails and drum

Made in the U.S.A

*Built tough
for continuous
24 hour, 7 day use!*

★ **0-15 rpm
Variable
Speed Control**

Enclosed
Motor and Drive

Removable Polycarbonate Cover

Stainless Steel
Adjustable
Infeed Chute

Quick, Easy
Height and Angle
Adjustment

All swivel
and lockable casters

115/60/1

**Rugged
Construction for
High Volume
Operations**

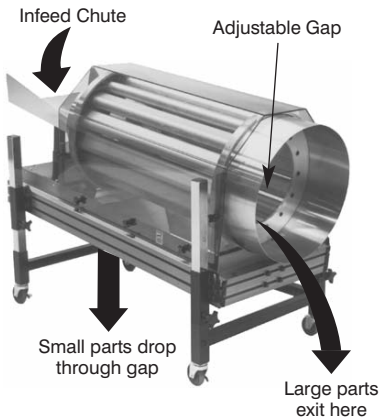

SPECIFICATIONS

Part Drop	Gap Width	0-1 ⁵ / ₁₆ "
Drive Motor	1/2 hp, variable-speed DC gearmotor with flexible drive coupling and 7 ft grounded power cord	
Dimensions	44" long x 25" wide x 29" to 44" infeed height	
Shipping Weight	320 lbs.	

HERE'S HOW IT WORKS

Adjust gap between vanes so smaller pieces drop through gaps into box or conveyor. Larger pieces remain in drum and exit through the discharge ring.

Gap size is easily adjusted from a single knob. Drum speed and angle, and infeed chute height and angle are also adjustable to provide complete sorting.
